

11 December 1979

NOTE TO ALL ORD PERSONNEL

SUBJECT: ORD Management Advisory Group

As a result of the recent election, the following ORD personnel have been elected to the ORD Management Advisory Group (MAG):

25X1A9a

25X1A9a

[REDACTED], who received the most votes, will be Chairman of the ORD MAG.

There have been several comments about the lack of a secret ballot in this election. As you are aware, ORD does not possess an election machine and thus has no electronic means of insuring the authenticity of each ballot. Therefore, the system used was selected as being the best way of insuring that only those who were authorized to vote in the election actually voted. Once the ballots reached the Special Election Chairman, they were seen only by me and the one person chosen to verify the election count. The ballots have now been destroyed.

25X1A9a

Special Election Chairman
